

ATTENTION EMPLOYERS!

Are you hiring production workers, technicians and other entry-level positions? Would you like to interview these students at the end of the Energy Boost training?

We'll be training 20 students per Session.

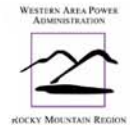

Participating employers will have the opportunity to:

- Direct the content of the training
- Give tours of their facility or make a presentation during the training
- Interview students at an exclusive job fair

Take a look at a new profession. If you enjoy working with your hands, if the energy world intrigues you, the Energy Boost Training will introduce you to this new and exciting industry. Top energy companies in Northern Colorado helped to develop this hands-on training for technicians, operators and production workers. Those who successfully complete this 92-hour program will be able to meet the region's top energy companies including Vestas, Abound Solar, Aerotek and city utilities. These are production and technician worker positions some starting as high as \$35,000/year with benefits.

To view the positoin description go to:
www.frontrange.edu/continuinged

Cost to attend: \$1200 - includes all books and materials. Your local work-force center may be able to help with scholarship funds.

FRONT RANGE
COMMUNITY COLLEGE
